Nick Young Talks Vaguely About the League Directors' Meeting.

HE HAS NO AUTHORITY FOR HIMSELF.

Session Called for Next Week-Chieago Lost Again and Boston Still Wins-Short Sporting Stories.

Washington, D. C., Oct. 2.-Three days more may settle the championship of the National league. Said President Young: "It may not be necessary for me to call a special meeting of the directors to consider the protest of the Chicago club against the Boston-New York series just completed. If the exigencies of the situation demand, it may be decided to call a meeting at the Fiftn Avenue hotel, New York, not later than Tuesday of next week. My intention is to have all the members of the board of directors present, so that there can be no cavil what-ever after a decision is reached as to whether Boston shall fly the penuant next season. I have no authority to order games to be played, that being a matter exclusively under die jurisdiction of the clubs of the national eague." Mr. Young quoted section 55 of the National league constitution, and continued That rule contemplated such an emergency as has arisen, and so that no suspicion ever of collusion might arise it was made obligatory to secure the consent of two-thirds of the other clubs to such matters as playing two games in one day. Clubs do not have to report their action in this respect to me, but it is a matter entirely among themselves. Pres-ident Soden, however, is a shrewd business man, and it is quite likely be amply protected himself before playing the extra games. So far as the National league is concerned its season will close Saturday. Hence it is ab-surd on its face for a threat to be made that the Chicagos will play off certain postponed games after the regular season is closed, and I do not believe that Anson ever advanced such a proposition."

Jockey McLaughlin's Gall. New York, Oct. 2 .- James McLaughlin, the jockey who rode His Highness to victory in the Futurity stakes, received a check for \$3,000 from Mr. Gideon for his twenty minutes of service on that occasion. That would eem to most people to be a remarkably lioeral payment for the services rendered, and it is doubtful if such a sum was ever paid a ockey in this country except when Garrison won the suburban for Mr. Belmont with Raceland, for a single mount. Yet McLaughlin was complaining yesterday be-cause he had not open paid sufficiently. It hardly seems possible, yet such is the fact, and his complaint caused a general feeling of disgust among his friends. It is not stated whether he wanted the cettre stake or the horse as a reward for his services. Mr. Gideon agreed to give \$10,000 to his trainer and jockey if he won the stake, and he divided it as he thought proper, giving \$7,000 to the trainer. Pate of a Vonne Lady Who Was Taken Ill on a Rock Island Train. CHICAGO, Ill., Oct. 2 .- On the arrival of

the limited train ou the Rock Island road from Denver this morning, it was learned that a young woman from Denver had either jumped off or fallen from the train to her death, a short distance outside the city. Her brussed and mangled remains were sup sequently found at a point where the train was running at a high rate of speed. She was taken seriously ill last night about 200 miles west of this city and suffered very severely. She was given such attention as was possible under the circumstances. The first intimation of the tragedy was when the train reached Englewood inside the city limits when she was missed. A search of the train failed to reveal any trace of her, so telegrams were sent to the agents along the line to make a thorough search for her, with the result stated. It is supposed that, crazed with pain, she either purposely or accidentally jumped from the train when it was

going at a high rate of speed.

Concuctor Diedrick says: "She was hand-somely dressed and seemed to have plenty of oney. She was a striking looking woman some 20 years of age. President Redman ruled that it was not necessary, as the club would stand by and back up the resolution. Mr. Bruner again got upon the floor and deveted half an hour to singing the praises of the Ketcham company's goods. His idea was to patronize Omaha me-chanics. It would be beneficial to patronize Omaha houses at all times. O'Conner asked Mr. Kenney if there was anything compelling Coots to have made the furniture in Omahn if he had secured the contract, Mr. Kenney replied that contract of that kind could have been made Mr. O'Conner said that Coots had sub-let his contract on the city hall to outside parties, notwithstanding the fact that the original contract provided for only home

Mr. Kenney said the idea was rediculous to

say that Omaha increments were not capable of handling a \$30,000 contract. A motion was made that the resolution be laid over until the close of the present coun-

Mr. Osthoff moved that the chairman appoint a committee of five kickers to investigate the sets of the council purchasing the furniture of the Ketcham Furniture company. It is for the future to say, after the next general election whether this eanity, if it continues, will be an enmity with the people and not with the states. To see one country oppressed by the rulers of another country is a heart-rending sight. You are a set-governed people, but your people, by your votes determine the course the imperial policy must follow. With this power you must accept the duties and responsibilities which belong to it. If Ireland is oppressed hereafter it will be oppressed by you, people of England. I can never believe that agreat ration will place itself in such a position. In truth, this question of friendship or enmity lins already been considered in some degree. Favor of friendship has been made in a most constitutional manner.
